

2-hello-world

A hello world f# console application.

A terminal window titled '2-hello-world - JustPi01@DUB-JustPi01-MAC - ..2-hello-world - -zsh - 175x25'. The terminal shows a sequence of commands and their outputs. The user enters 'whoami' and 'JustPi01'. Then they run './start.sh', which outputs '2-hello-world git:(main) # ./start.sh'. Next, they run 'whoami' again, outputting 'JustPi01'. Then they run 'cd hello-world', outputting '2-hello-world git:(main) # cd hello-world'. They then run 'dotnet build', which outputs 'hello-world git:(main) # dotnet build' followed by a message about MSBuild version 17.8.3. After running 'dotnet run', the terminal outputs 'Hello from F#'. Finally, they run 'exit', outputting '2-hello-world git:(main) # exit', and then 'whoami', outputting 'JustPi01'. The terminal also shows a 'Time Elapsed' message and a 'Build Succeeded' message.

```
2-hello-world git:(main) # whoami
JustPi01
2-hello-world git:(main) # ./start.sh
2-hello-world git:(main) # whoami
JustPi01
2-hello-world git:(main) # cd hello-world
hello-world git:(main) # dotnet build
No issue was encountered verifying workload. For more information, run "dotnet workload update".
MSBuild version 17.8.319567f53 for .NET
